

Where Octalarm Connect has coverage

Octalarm Connect

The Octalarm Connect service works at low, fixed costs per month via GSM and VoIP/SIP in zone 1 and zone 2. Through the setup wizard you can easily activate the SIM card. The required zone is automatically determined by selecting a region and country during the initial configuration of the alarm dialler.

Zone 1	Zone 2	Zone 3	Zone 4	Zone 5	Zone 6
Austria	Albania	Argentina	Afghanistan	Bolivia	Algeria

	Thailand		Sudan		
	Turkey		Swaziland		
	Ukraine		Virgin Islands (UK)		
	Uruguay		Yemen		
	USA *				

* In the USA, 2G and 3G have been turned off. As a result, the Octalarm needs to call over 4G, using VoLTE. This is not possible with the current Octalarm Connect M2M sims (from KPN). KPN is considering the rollout of VoLTE on these sim cards, but it is not yet clear when this will start.
