Checkmyprocess.com

The measuring centre 'Checkmyprocess' is a cloud platform to support the SVA 4G alarm dialler and SVL 4G Weblogger. Through this platform, the alarms and measured values from your technical processes are visible on your smartphone, tablet or PC. This way you have insight into the status of your technical installations, anywhere and anytime.

- ✓ Overview of all your diallers on the Internet
- ✓ Simple management of multiple measurement locations
- ✓ Display of current alarm statuses
- ✓ Alarm history overview

For logging measured values, the SVL Weblogger can be linked to third-party platforms.
